

Chia Li Juan

Year 3 Student of SIT-DigiPen

My education background ranges from engineering to computer science! I am passionate in transforming data into seamless user experience, to enhance user's satisfaction. I aspire to work in roles related to product analytics, UX-research and data-driven systems. I thrive in structured, logical environments. My goal is to bring my programming foundation and analytical problem-solving skills to tech and digital companies to help drive their success.

EDUCATION

- **SIT-DigiPen Institute of Technology**
BSc Computer Science in Interactive Media and Game Development
Sep 2024 - Current
- **Singapore Polytechnic**
Diploma in Information Technology
Apr 2021 - Mar 2024
- **ITE College West**
Higher NITEC in Mechatronics
Apr 2019 - Mar 2021

SOFT SKILL

- Effective Communication
- Project Management/SCRUM
- Critical Thinking
- Analytical Thinking
- Adaptability
- Problem Solving

TECHNICAL SKILL

- Website & Mobile Development
- Unity
- Blender
- SQL Server
- JavaScript
- Game Development
- C/C++

LANGUAGE

- Fluent in English
- Fluent in Chinese

PROJECT EXPERIENCE

Donut Disturb - Beat Em Up | DigiPen Module GAM 200

Sept 2025 - Apr 2026

- **Role:** Project Manager, Programmer - Production Champion
- Our team comprised of IMGD, RTIS & UXGD students, we have come together to create a story-driven rhythm-action game built on a our group's own real-time C++ application with its own memory allocators (Donut Engine), The game consists of all combat and movement strictly synchronize with the soundtrack's beat.

RSAF AH-64D Virtual Reality Aircraft Pre-Flight Trainer | SP FYP

Oct 2023 - Apr 2024

Acted as Assistant Team Leader for a classified interactive simulation project for the Republic of Singapore Air Force (RSAF). Directed Agile project management workflows, including managing sprint backlogs, delegating tasks, maintaining detailed minutes. On the technical side, programmed state-based interactive features. Additionally, produced high-fidelity 3D assets from scratch, ensuring a highly accurate simulation under strict military non-disclosure (NDA) protocols.

Warehouse Management System Integration | SP Internship

Mar - Aug 2023

Assisted in the project of implementation of a Warehouse Management System (WMS) across SG Hospitals. Acted as the core technical liaison between hospital stakeholders and external vendors, facilitated requirement gathering sessions. Analyzed system architectures to understand complex data interfaces between the new WMS, existing SAP networks, and pharmacy systems. Managed critical project documentation, tracked action items, and navigated complex stakeholder discussions to ensure supply chain data workflows were seamlessly and accurately integrated.

WORK EXPERIENCE

Ministry of Manpower (MOM) | MRSD Survey Verification Officer

Feb - Aug 2024

- **Responsibility:** Validating data upon completion of survey, ensure data collected is credible and accurate
- **Adaptability:** maintain high standard of work quality by consistently meeting KPI under tight timelines, adapt fast under fast paced and tight project dateline
- **Communication:** Communicating with respondents with completing of survey or verification purpose, high level of customer service

SYNAPXE PTE LTD | Intern under ERP Supply Chain

Mar - Aug 2023

- **Project Management:** Assisted in implementation of Warehouse Management System (WMS) Project to the public hospitals
- **Independence:** Directed self-learning to understand system
- **Technical Writing:** Ensure all minutes is being documented
- **Communication:** Communicating with vendors & clients on meetings & information

SPEQS MANUFACTURING PTE LTD | QA ENGINEER INTERN

Jun - Aug 2020

- **Technical Writing:** Ensure all production's paperwork are of correct measurements
- **Quality Assurance:** Assuring all product's length are within acceptable range
